GoodRx Open Sources Lifecycle to Support Innovation in Software Development Velocity and Developer Productivity

June 5, 2025

Public release of Lifecycle reflects company's commitment to transparency, innovation, and community collaboration

SANTA MONICA, Calif.--(BUSINESS WIRE)--Jun. 5, 2025-- GoodRx (Nasdaq: GDRX), the leading platform for medication savings in the U.S., today announced it is open-sourcing Lifecycle, a homegrown development tool designed to improve team velocity, streamline review workflows, and reduce infrastructure overhead.

Lifecycle is now available to the public under the Apache 2.0 license, inviting developers and organizations to adopt, contribute to, and build upon the platform. The tool allows engineering, quality assurance, and platform teams to automatically spin up short-lived, isolated environments—known as ephemeral environments—for testing and reviewing code changes in real-world conditions.

"We believe healthcare innovation should be accessible and collaborative," said Nitin Shingate, Chief Technology Officer at GoodRx. "Lifecycle has had a meaningful impact on our ability to deliver high-quality software efficiently. By open-sourcing this tool, we're inviting the broader community to build, improve, and adapt solutions that benefit everyone."

Internally, Lifecycle has helped GoodRx reduce deployment friction, improve cross-functional collaboration during code reviews, and lower costs tied to long-lived staging infrastructure. It reflects the company's broader commitment to modern engineering practices and open collaboration.

"Open sourcing Lifecycle reflects our commitment to transparency and to empowering developers," Shingate added. "It's not just about sharing code, it's about sharing the ideas and practices that can help teams everywhere move faster and work smarter."

The open-source release is hosted on GitHub under the new GoodRxOSS organization. Developers can explore the code, access detailed documentation, and review contribution guidelines at https://github.com/GoodRxoss/lifecycle.

GoodRx is also inviting developers, platform engineers, and contributors to join its growing community on Discord, where discussions and support around Lifecycle will be actively maintained. Join the conversation at https://discord.gg/E27ySEyrD5.

About GoodRx

GoodRx is the leading platform for medication savings in the U.S., used by nearly 30 million consumers and over one million healthcare professionals annually. Uniquely situated at the center of the healthcare ecosystem, GoodRx connects consumers, healthcare professionals, payers, PBMs, pharma manufacturers, and retail pharmacies to make saving on medications easier. By reducing friction and inefficiencies, GoodRx helps consumers save time and money when filling prescriptions so they can get the care they deserve. Since 2011, GoodRx has helped Americans save over $85 billion on the cost of their medications.

GoodRx periodically posts information that may be important to investors on its investor relations website at https://investors.goodrx.com. We intend to use our website as a means of disclosing material nonpublic information and for complying with our disclosure obligations under Regulation FD. Accordingly, investors and potential investors are encouraged to consult GoodRx's website regularly for important information, in addition to following GoodRx's press releases, filings with the Securities and Exchange Commission (the "SEC") and public conference calls and webcasts. The information contained on, or that may be accessed through, GoodRx's website is not incorporated by reference into, and is not a part of, this press release.

GoodRx Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements contained in this press release that do not relate to matters of historical fact should be considered forward-looking statements, including, without limitation, statements regarding anticipated consumer savings, convenience and accessibility; the expected benefits and value of Lifecycle; and our plans, expectations and objectives. These statements are neither promises nor guarantees, but involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements, including, but not limited to, risks relating to our ability to achieve broad market education and change consumer purchasing habits; changes in medication pricing and pricing structures; our reliance on a limited number of industry participants; and the important factors discussed under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2024, and our other filings with the SEC. Any such forward-looking statements are based on current expectations, projections and estimates as of the date of this press release. While we may elect to update such forward-looking statements at some point in the future, we disclaim any obligation to do so, even if subsequent events cause our views to change.
